

TIMELESS, TUNED TO STAY WITH YOU

CONCEPT AND INSPIRATION

The vanguard of premium personal audio: precise, refined, and built to stay with you."

Vanguard is a premium audio house built on a simple idea: sound should feel permanent. In a market crowded with disposable gadgets, Vanguard designs headphones and speakers meant to be lived with for years — pieces that age like fine hardware, not like electronics

- PRECISION — Engineered sound accuracy — Hi-Res, ANC, and spatial audio without compromise.
- TIMELESSNESS — Design that resists trends; metals and forms that age with dignity.
- INTIMACY — Sound tuned to stay close — personal, warm, and immersive.
- CRAFT — Materials and finishing borrowed from luxury goods, not consumer tech.

UI/UX & RETAIL APPROACH

Dark hero grounds the brand in cinematic contrast; a single gold CTA guides the eye.

The exploded driver diagram turns engineering into a visual centerpiece, reinforcing the Precision pillar." – this ties the image directly back to your Slide 1 pillars, which is what makes your deck feel like one connected argument instead of five separate slides

Store display and campaign poster share the same dark-ground, gold-accent system – the identity holds across formats.

BRAND STYLE GUIDE

VERSION 1.0 · 2026

WHO WE ARE

The Brand

Vanguard is a premium audio house built on a simple idea: sound should feel permanent. In a market crowded with disposable gadgets, Vanguard designs headphones and speakers meant to be lived with for years — pieces that age like fine hardware, not like electronics.

The name signals leadership at the front edge of listening technology, while the tone of voice and gold-on-black identity borrow from watchmaking and luxury audio heritage rather than consumer tech. Every surface, from the earcup finish to the retail display, is designed to feel considered and enduring.

Mission — To craft audio products that pair studio-grade sound with timeless, heirloom-quality design.

Positioning — The vanguard of premium personal audio: precise, refined, and built to stay with you.

I PRECISION Engineered sound accuracy — Hi-Res, ANC, and spatial audio without compromise.	II TIMELESSNESS Design that resists trends; metals and forms that age with dignity.	III INTIMACY Sound tuned to stay close — personal, warm, and immersive.	IV CRAFT Materials and finishing borrowed from luxury goods, not consumer tech.
---	--	--	--

PRIMARY MARK

Logo

The Vanguard wordmark blends a sharp gold "V" with a sculpted, headphone-inspired "A" — its arch and two circular feet echo an earcup and headband. The remaining letterforms shift between warm gold and brushed ivory, reinforcing the metallic, high-fidelity feel of the product line.

✓ DO

Use on solid black or dark backgrounds with full clear space maintained.

✗ DON'T

Do not recolor, flatten to a single tone, stretch, or place on busy imagery.

Maintain clear space equal to the height of the "A" arch on all sides. Minimum digital width: 120px. Minimum print width: 30mm. Below this size, use the icon mark alone (V-arch motif) where legibility is critical.

PALETTE

Color

A restrained palette of black, warm gold, and ivory carries the brand across packaging, retail, and digital. Gold is used as accent and metal, never as a background flood; black remains the dominant field so gold reads as premium metal, not decoration.

VANGUARD BLACK HEX #0A0A0A RGB 10, 10, 10	SIGNATURE GOLD HEX #C6A15B RGB 198, 161, 91	PALE GOLD HEX #E9DCB8 RGB 233, 220, 184	IVORY HEX #F2ECE0 RGB 242, 236, 224
--	--	--	--

PRIMARY USE

Vanguard Black — dominant background across packaging, UI, retail and print. Never substitute with pure #000000 flat print black; use rich black for large offset areas.

ACCENT USE

Signature Gold — logo, CTAs, icons, borders, product highlights. Pale Gold/Ivory additional accent hues. The palette stays to — body copy on dark, secondary text, fine rules.

AVOID

Bright saturated colors, pastels, or these four tones across all touchpoints.

TYPE SYSTEM

Typography

Headlines use a high-contrast serif set in wide tracking for a couture, editorial feel. Supporting copy uses a clean, widely tracked sans-serif in small caps, keeping the tone quiet and precise beside the ornate headline type.

DISPLAY / HEADLINE

Vanguard Reserve

SUPPORTING / TAGLINE

TIMELESS, TUNED TO STAY WITH YOU

HEADLINES

Serif, letter-spaced, sentence or title case.
Reserved for campaign titles, section
headers, and hero moments.

BODY & LABELS

Sans-serif, uppercase, tracked out for
eyebrows, captions, and UI labels;
sentence case for longer body copy.

HIERARCHY

Never combine more than one display serif
and one supporting sans in a single layout.
Gold rules, not bold weight, separate
sections.

VISUAL WORLD

Imagery Style

Product photography sits on near-black backgrounds with a single warm rim light, evoking a sanctuary or listening chamber rather than a studio shot. Products are staged on raw stone or brushed metal, never on plain seamless paper, to keep the mood tactile and cinematic.

HERO / CAMPAIGN — dramatic, low-key lighting

RETAIL — product grid on black, gold rim light

Lighting — single warm gold key light, deep shadow fall-off, minimal fill.

Composition — centered or triptych product hero, generous negative space.

Avoid — bright even studio lighting, colorful backdrops, lifestyle imagery with visible faces.

IN USE

Applications

The system extends consistently from retail display to campaign poster — always dark ground, gold accent, and the wordmark anchored at the top.

BRAND LAUNCH POSTER

HOW WE SOUND

Voice & Tone

Vanguard speaks the way its products are built — precisely, warmly, without hype. Copy is short, declarative, and confident; it never oversells, because the craft speaks for itself.

Refined

Measured language, no exclamation points, no gimmicks.

Precise

Specific claims — "Ultra Hi-Res Audio," not vague superlatives.

Warm

Personal and intimate — sound that stays with you, not at you.

"Experience pure sound, beat by beat — precision sound, all-day comfort."

VANGUARD

TIMELESS, TUNED TO STAY WITH YOU

The Vanguard audio logo features a pair of white headphones with gold-colored earbuds. The word "VANGUARD" is written in a large, gold-colored, serif font, and the word "audio" is written in a smaller, light blue, sans-serif font below it.

Timeless, tuned to stay with you

- Driver Type: 40mm Dynamic Drivers
- Frequency Response: 20 Hz-40kHz
- Total Harmonic Distortion (THD) <0.5%
- Audio Profile: High-Resolution Audio/Hi-Fi Sound
- Active Noise Cancellation: Hybrid ANC

- Sound Profile Tuning: Vanguard Signature/Studio Flat/Deep Punch/Vocal Focus
- Audio Engineering: Precision Engineered Acoustic Chambers
- Charging: Fast Charging via USB-C
- Battery Life: Up to 40 Hours of continuous playback
